## PROJECTS

### **SafeNation (AI-Based Women Safety & Emergency SOS System)**

*Technologies: React.js, Node.js, Express.js, MongoDB, Socket.IO, Twilio API, Leaflet, GeolocationAPI*

#### **Project Description:**

Developed a real-time emergency response web app for sending SOS alerts with live location tracking. Integrated maps using Leaflet, real-time communication via Socket.IO, and automated SMS alerts using Twilio. Includes contact management and a user-friendly interface for quick emergency response.

### **E-Commerce Website (React.js)**

*Technologies: React.js, JavaScript, HTML, CSS, API integration*

#### **Project Description:**

Developed a fully responsive E-Commerce web application using React.js. The website allows users to browse products, view product details, and manage items in a shopping cart. Component-based architecture was used to ensure code reusability and scalability

### **Pool Website (Node.js Based)**

*Technologies: HTML, CSS, JavaScript, Node.js*

#### **Project Description:**

Created a Pool Service Website that provides information about pool maintenance, services, and contact details. Backend functionality was implemented using Node.js to handle server-side operations.

### **AI-Based Weather Prediction App (Python AI)**

*Technologies: Python, Machine Learning, Weather API, Pandas, NumPy, React.js (Frontend)*

#### **Project Description:**

Developed an AI-based Weather Prediction Application using Python and Machine Learning techniques. The system collects real-time and historical weather data through APIs and predicts weather conditions using trained ML models. The frontend is built using React.js to display weather insights in a user-friendly interface.

## TECHNICAL SKILLS

- |                           |                                            |
|---------------------------|--------------------------------------------|
| • <b>Languages</b>        | JavaScript, C++, python, SQL, HTML5, CSS3  |
| • <b>Tools/Frameworks</b> | Figma, Vs Code                             |
| • <b>Databases</b>        | My SQL, MongoDB                            |
| • <b>Frontend</b>         | React.js, Tailwind CSS, Responsible Design |
| • <b>Backend</b>          | node.js, express.js                        |

## CERTIFICATES

### **Problem solving**

- I got Three Star on [Hacker Rank in python](#)
- [Leetcode : using c++, SQL](#)

### **Certification**

- full Stack Web Development (Rinex by B.Susmitha) ,
- DSA in C++ (Rinex by Vikyath)
- JWD\_AI (HCLtech)
- Artificial Intelligence (Rinex by Abisha J)

## EDUCATION

### **KCC Institute of Technology and Management**

- Bachelor of Technology in Computer Science and Engineering -CGPA 7.7/10

Greater Noida, India  
Nov2022-May2026
